About Cyber Shield Foundation

Cyber Shield Foundation is a charitable initiative dedicated to strengthening cyber safety in society.

In today's digital world, cybercrime such as online fraud, identity theft, cyber bullying, financial scams, and online abuse are increasing rapidly. Many victims do not know where to seek help or how to respond.

Cyber Shield Foundation aims to bridge this gap by providing awareness, guidance, training, and support to individuals and communities.

Through education, collaboration, and responsible digital practices, the foundation works to build a safer and more secure digital future.

Vision

To build a secure and trusted digital world where individuals can confidently engage, communicate, and grow without fear of cyber threats.

Mission

To support victims of cybercrime, including online abuse, fraud, and scams, by providing legal awareness, education, guidance, and practical assistance, while delivering structured digital safety training, promoting responsible cyber practices, and strengthening cyber safety for women and children to build a safer digital environment across society.

Core Objectives

Cyber Crime Victim Support

Providing guidance and assistance to individuals affected by cybercrime.

Legal Awareness & Education

Creating awareness about cyber laws, digital rights, and legal remedies.

Digital Safety Training

Conducting structured training programs to improve cyber safety awareness.

Women & Child Cyber Safety

Promoting safe digital practices and protection mechanisms for women and children.

Cybersecurity Research

Encouraging research, knowledge sharing, and analysis related to cyber threats and digital safety.

Cyber Security Courses

Conducting courses, workshops, and training programs related to cybersecurity and digital protection.

Key Activities

Cyber safety awareness programs

Workshops and seminars

Cyber law awareness sessions

Digital safety training programs / courses

Support and guidance for cybercrime victims

Collaboration with institutions and organizations

Research and knowledge sharing in cybersecurity

Behind the Initiative

Cyber Shield Foundation is supported by the expertise and vision of CODSTECH Web Solutions Pvt. Ltd. (<https://codstech.org/>), a certified cybersecurity and technology company providing Cyber & Technical Consultancy, Cyber Legal Consultancy, and a wide range of IT-related services.

Led by EC-Council (USA) accredited cybersecurity professionals (Ethical Hackers), Codstech brings strong technical expertise, credibility, and real-world experience in protecting digital systems and addressing cyber threats.

At CODSTECH, technology is not only about innovation but also about responsibility. With a strong commitment to social impact, the organization aims to strengthen cybersecurity awareness, digital protection, and support systems for individuals and communities.

This larger vision led to the establishment of the Codstech Cyber Shield Foundation, a charitable initiative dedicated to supporting cybercrime victims, spreading cyber awareness, and promoting safer digital practices in society.

Join the Movement for a Safer Digital Society

Cyber safety is a shared responsibility.
By spreading awareness and empowering individuals with knowledge,
we can collectively reduce cybercrime and create
a safer digital environment.
